

BugVision Plant Type List

This tutorial is designed to describe all the features of the Bug Type List

1. Plant Type List

On the home page, click on the “Plant Type” tile (<https://www.app-bug-vision.com/planttypes>).

Name	Description
African Daisy	Osteospermum
African violet	Saintpaulia
Aloe	Aloe
Alpenrose	Rhododendron ferrugineum
Alyssum	Alyssum
Amaryllis	Amaryllis belladonna
Argyranthemum	Argyranthemum
Armeria	Armeria

BugVision is provided with a library of plants including a picture, a link to a documentation web page and the scientific name.

Beside the system library, you can create your own plant types by clicking on the “+” icon.

Name:

Author: Description: **B /**

You have the possibility to edit or delete the plants from your company library.
